

Little Sisters of the Poor

Caring for the elderly poor since 1839

December 16, 2021

Dear Jeanne Jugan Community,

The Home continues with surveillance testing of all residents and staff twice a week. The Home is still waiting on the final results from Monday's testing. Of the results completed, all were negative except for two Residents, one on the third floor unit and one on the fourth floor unit. The Residents have mild symptoms or no symptoms at all.

Residents may receive the monoclonal antibody infusions (MABS) at the Home for COVID positivity and/or post-exposure. Yesterday, a number of Residents received the home infusion of MABS. The Residents are continuing to receive their meals and activities are limited to the Residents rooms.

The issue with the laboratory has not been resolved. The Home has still not received all the results from Monday. Today, the lab tech is completing rapid tests on Residents and Staff.

We will continue to provide you updates regarding our community. Please keep us in your prayers.

Thank you for your patience and support.

Mother Patricia Metzgar
